Regional Workshop for Clinicians:

*Older & Medically At-Risk Drivers
– Alzheimer's/Other Dementias and
Medical Fitness to Drive*

Thursday, November 13, 2014

8:00 am – 10:00 am (breakfast served @ 7:30 am)

William Hill Manor

501 Dutchman's Lane, Easton, MD

Maryland Motor Vehicle Administration (MVA) is hosting this workshop on older driver safety in collaboration with William Hill Manor and the Copper Ridge Institute affiliated with the Johns Hopkins University School of Medicine. Registration and professional development hours are **FREE**. Seating is limited and **Clinicians must RSVP by 11/6/14**. Clinicians interested should register at <http://alturl.com/m3ukz> or contact Nanette Schieke at nschieke@mdot.state.md.us for more information.

The increasing prevalence of Alzheimer's disease and other dementias in America's older adult population presents a public health concern relative to road safety. This workshop will focus on the impairments produced by dementia and common medical conditions that may affect the older adult's ability to drive safely. Expert speakers will lead discussions on topics such as recognizing cognitive and medical conditions that may affect driving safety, and the MVA's process of referral and evaluation for medical fitness to drive.

Occupational Therapists:

This continuing education program has been approved by the Maryland Board of O.T. Practice for 1.75 contact hours. **APPROVAL PENDING as of 10/3/14.**

Allied Health:

Nurses and other non-physicians attending the clinical workshop will receive a Certificate of Completion.
